OPEN AIR MERCHANDISERS HORIZONTAL · 35" DEEP · TALL

EOMH-36-B-35-T

EOMH Series

Refrigeration System

• Bottom mounted, self-contained and fully detachable Blizzard R290 condensing unit uses environmentally friendly, EPA-compliant R290 refrigerant with zero (0) Ozone Depletion Potential (ODP) and three (3) Global Warming Potential (GWP). Blizzard R290 is easily replaceable and requires no on-site brazing.

Front air intake and rear air discharge design allows side by side installation.

Electronically commutated (ECM) evaporator fan motors achieve rapid cooling with less energy consumption.

 \cdot High performance, auto-reverse condenser fan motor supports compressor ventilation and condenser coil cleaning.

· Large capacity, corrosion-resistant condenser and evaporator coils.

 \cdot Self-maintaining, energy-efficient condensate drain pan requires no external drains or electric heaters.

· Pre-wired and ready to plug, 115V/60Hz/1Ph, NEMA 5-20P.

Cabinet Construction

Black modern exterior has moisture-resistant panels and field replaceable tempered glass.
 Heavy-duty stainless steel interior has perforated back wall for efficient air flow. Includes
floor drains for ease of cleaning.

- · Front stainless steel bumper belt protects against shopping cart impact.
- · Galvanized steel top, bottom and rear.
- 2.5" thick high-density polyurethane insulation.
- · Integrated retractable night curtain saves energy and provides security.
- 5" swivel casters with locks on front set. Leg stabilizers included.

Lighting

· Shielded LED bar lighting under shelves and canopy provide bright, high color illumination at lower heat output. On/off switch saves energy.

Shelving

• Adjustable by height and angle. Position it flat or slanted downward at 10°. • Heavy duty stainless steel shelves include price tag moldings.

Temperature Control

 \cdot Factory preset temperature of 35°F maintains a combined average product temperature of 40°F or less.

 \cdot Audible overheat protection alarm for compressor and condenser coil.

Recommended Operating Conditions

• Conforms to NSF standard 7 TYPE II designed to operate in an air-conditioned environment where temperature and humidity do not exceed 80°F and 55% respectively. • Must not be installed near ventilation systems, fans or exterior doors or windows that will disrupt the air curtain.

· Must not be installed in direct sunlight.

 \cdot In built-in applications, a distance of 6" is required on the front, back and top exterior for ventilation purposes
