Additional Features:

- Rounded inner floor/wall joints, NSF approved stainless steel sheeting and high density polyurethane foam keeps the cool air inside and makes it easy to clean up
- Excellent Cooling Performance, Over-sized Condenser & Evaporator Coil and slow running fan motors keeping food fresh.
- Our defrost timer system keeps cooling systems separate from the evaporator. It doesn't ice up or inhibit the compressor, giving the unit outstanding performance and a longer life even in the most difficult environments.
