Additional Features:

- Stainless sheet and highly dense polyurethane forming perfectly keeping the cool air inside and makes it easy to clean up.
- Excellent cooling performance, over-sized condenser & evaporator. It doesn't ice up or inhibit the compressor, giving the unit outstanding performance and a longer life even in the most difficult environments.
- Our defrost timer system keeps cooling systems separate from the evaporator. It doesn't ice up or inhibit the compressor, giving the unit outstanding performance and a longer life even in the most difficult environments.
- These models are designed to operate in an environment where temperature and humidity do not exceed 75°F and 65% relative humidity.
