# **ARG8PVDR**

50" x 23.38" x 24.38" (H x W x D)

Performance series Pharma-Vac 8 cu.ft. upright glass door all-refrigerator for vaccine storage with four ventilated removable drawers, antimicrobial silver-ion handle, and hospital grade cord with 'green dot' plug

#### **Highlights:**

Intelligent microprocessor digital temperature controller

Improved temperature accuracy with a separate temperature probe for continuous product readout to simulate stored product temperature

Powder-coated handle with naturally occurring silver ions to help reduce germ spread

#### **Product Features:**

| Purpose-built design                            | Designed and purpose-built for pharmacy, medication, and vaccine applications to support meeting CDC/VFC guidelines                                                                  |
|-------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| +/-1°C Variation                                | The published temperature variation is derived from the maximum deviation of an NTC sensor in a 1 oz. vial located nearest the chamber geometric center during a 24 hour test period |
| Antimicrobial silver ion-coated handle          | Powder-coated handle with naturally occurring silver ions to help reduce the spread of germs                                                                                         |
| Adjustable temperature                          | Intuitive controls let you adjust the interior temperature between +2 to +8°C                                                                                                        |
| Full-extension ventilated drawers               | Four drawers made from powder-coated aluminum glide out smoothly for convenient storage, with perforated bottoms to ensure proper air circulation                                    |
| Removable drawers                               | Drawers can be easily removed for convenient transporting of contents to a lab counter or work station                                                                               |
| Temperature alarm                               | Visual and audible alarms alert if the interior temperature rises or falls out of set range                                                                                          |
| Remote alarm contacts                           | Electronic controller is equipped with a volt-free contact for alarm forwarding to an external remote system (contacts located in the external rear of the unit)                     |
| Automatic defrost with adjustable cycle defrost | Adjustable cycle defrost operation ensures the unit avoid temperature spikes and ice buildup                                                                                         |
